

PRECISION WR75 FLANGE

MPF75A AND B

| Flange Designation [4] | 0.125 Indexing Holes |
|------------------------|----------------------|
| MPF75A | No |
| MPF75B | Yes |

- [1] This dimension applies to the 0.125 indexing holes only.
- [2] This dimension applies to the 0.144 bolt holes only.
- [3] All holes are drilled in flange after flange to waveguide assembly, (when applicable). Some Maury parts may be provided with 0.1405 holes.
- [4] This flange mates with most military and commercial WR75 flanges, (Reference: M3922/70-004 and -005).
- [5] Use indexing pins W996-4-1 or W996-4-2, or W997-4 (see data sheet 3A-996).
- [6] Indexing holes provided in MPF75B only.
- [7] May vary depending on device.
